

FAIR Datasets: How we aim for FAIR data in CLARIAH

Femmy Admiraal, Chief Data Officer

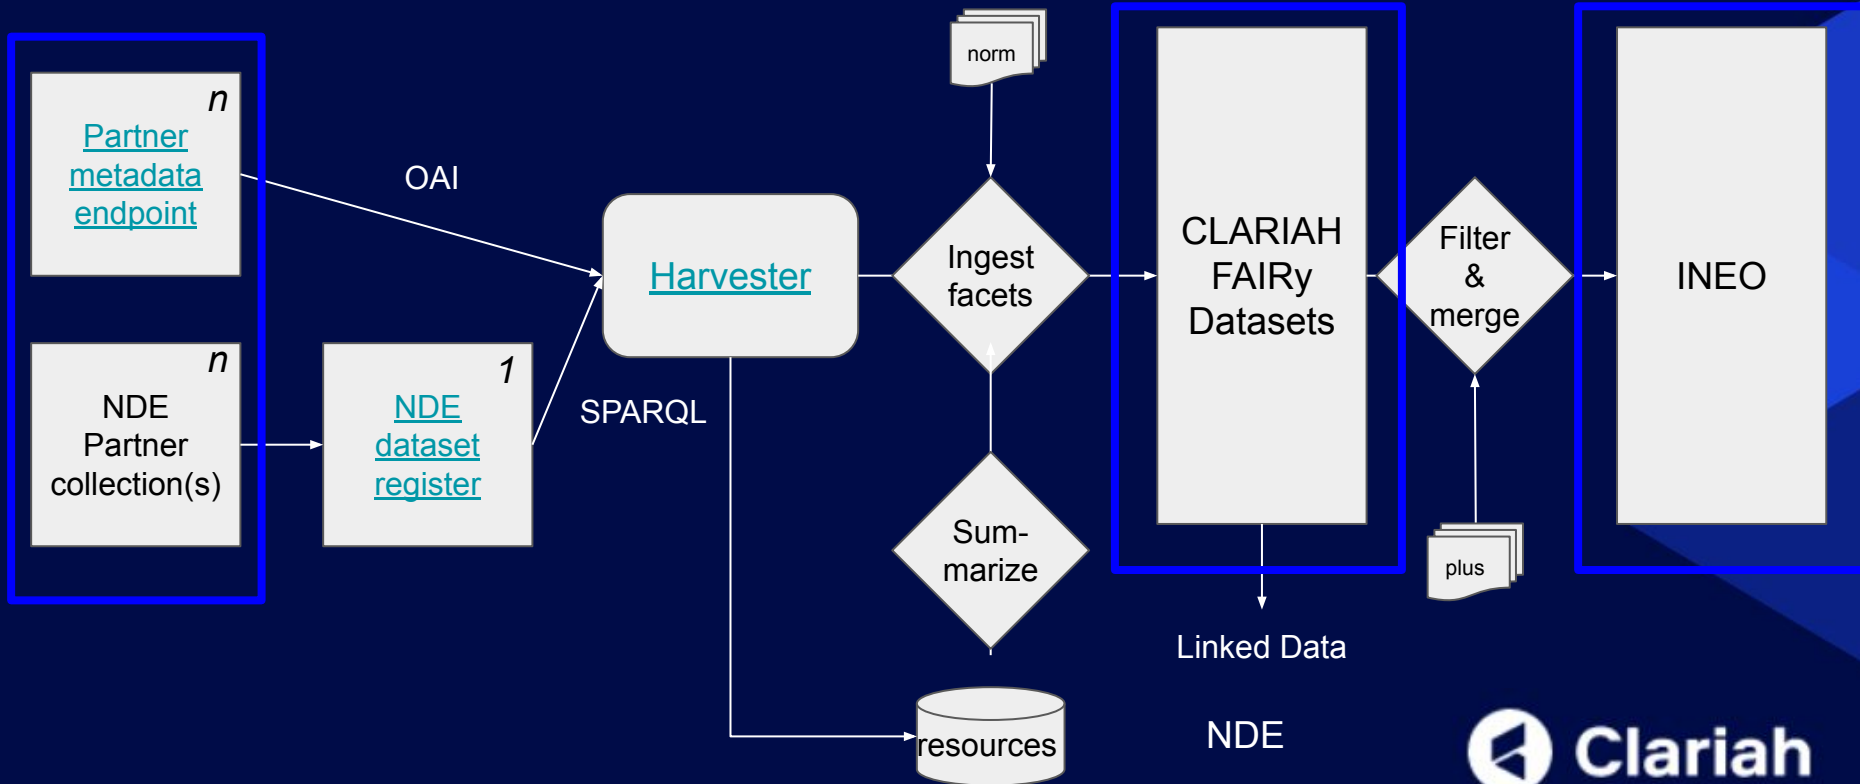

Menzo Windhouwer, Coordinator FAIR datasets

30 June 2022, CLARIAH+ TechDay

Shared Development Roadmap

1. FAIR Datasets
2. FAIR Vocabularies
3. FAIR Tool Discovery
4. FAIR Distribution and deployment
5. FAIR Annotations
6. Data Stories
7. Ineo

FAIR dataset registry: bird's eye view

Knowledge exchange and collaboration

Similar endeavors:

- CLARIN Virtual Language Observatory (VLO)
<https://vlo.clarin.eu/?0>
- Tools registry
<https://tools.dev.clariah.nl/>
- NDE dataset register
<https://datasetregister.netwerkdigitaalerfgoed.nl/>
- CESSDA Data catalogue
<https://datacatalogue.cessda.eu/>

Connect to (European) platforms:

- SSH Open Marketplace
<https://marketplace.sshopencloud.eu/>
- EUdat B2find
<http://b2find.eudat.eu/dataset>
- EOSC?

FAIR data requirements

CLARIAH requirements

<https://github.com/CLARIAH/clariah-plus/tree/main/requirements>

- Software and Service Requirements
- Infrastructure Requirements

FAIR data requirements

- Described using MoSCoW prioritization
- Strongly based on FAIR principles
- High-level, but with pointers to concrete suggestions
- First draft to be discussed at DataDay (1 July)
